S/S 2019 “THE BEGINNING OF THE DAY IS A SPACE FLOODED BY LIGHT AND PEOPLE.”

ON ARCHETYPES, SIMPLE FORMS, AND SUBTRACTION:
The collection S/S 2019 by Xavier Garcia.

Xavier Garcia's identity is in transformation. Subtraction is key. Archetype, his inspiration. Clarity, his dogma.

This collection is an exercise in synthesis and simplicity; the highest order of our craft. Each piece is a declaration of intent. Beyond trends, the new collection by Xavier Garcia provides a contemporary interpretation of a set of archetypal models. His elegance is timeless, his precision cutting-edge, with a manufacturing process based on skill and craftsmanship. The plasticity of acetate meets the sharpness of metal, as each piece is moulded and refined into a staple accessory by hand.

THROUGH THE GLASS OF XAVIER GARCIA:
MEDITERRANEAN CHARM, ESSENTIAL CONTEMPORANEITY
The Brand.

Starting out as a jewellery designer, Xavier Garcia believes in meticulous design and a hands-on production process. Recognizing that it takes time to perfect a product, he values materials, sensuality and form. Xavier Garcia's aesthetics stems from a vivid sense of clarity, elegant simplicity, and taste.

His designs speak of Barcelona's inherent warmth, charm, and laid-back Mediterranean vibe. Over the past ten years, Xavier Garcia has nurtured a vital connection with the city, with its vibrant culture, creativity, and sensitivity for beauty.

From an atelier in the hip 22@ neighbourhood, where many of Barcelona's best fashion brands, startups and creative studios are based, Xavier Garcia explores the fusion between creativity and design, technology and production - styling quintessential and elegant eyewear that represents contemporary craftsmanship at its best.
